Construction BoCastel: Attention – Mr. Joe Di Lella

Dear Mr. Joe Di Lella,

We would like to take this opportunity to thank you for all the hard work and dedication you and your sub-contractors put forth towards building our dream home in La Prairie, QC.

When we first met, we were very impressed with the way you listened to our needs and were very open to doing your best to meet them, unlike many other contractors we met. Many of them seemed to be more concerned with their own agenda and not ours. I am glad to say that all our expectations were met with flying colors in the building of our home. You delivered the service as well as the quality materials. At times you were so meticulous for details, as we were, it felt as though you were building our home for your own family.

We highly recommend Construction BoCastel Inc. as a trustworthy and honest contractor. Feel free to contact us if you require any more details or information on our experience in working with Mr. Joe Di Lella.

Sincerely,

Mike D'Andrea
